The purpose of the Regional Transfer Center is to provide a centralized communication line for seamless and rapid transfers of patients into St. Mary’s. The center was developed in response to feedback from referring physicians and hospitals in our region and changes in the marketplace.

The Transfer Center is staffed by an experienced critical care nurse 24 hours a day, seven days a week to facilitate all transfers and admissions from other sources.

The Transfer Center provides a gateway to the continuum of care to your patients.

**The patient access nurse:**
1. Obtains all pertinent information about the patient.
2. Locates an accepting physician.
3. Arranges for bed placement in the appropriate level of care.
4. Arranges for the nearest air or ground transportation.
5. Follows the patient from acceptance to discharge.
6. Provides physician correspondence on all patients transferred.
7. In the event a bed is not available, the patient access nurse will help find an alternate facility.

**Benefits to calling St. Mary’s Transfer Center:**
1. Provides a centralized communication line with one call to meet your needs.
2. All communications are with a critical care trained registered nurse that can provide immediate bed status and service availability.
3. There are no transfers of calls between departments or waiting on hold.
4. Most importantly, patients receive the care they deserve as quickly as possible.

**When seconds count... Call St. Mary’s for the Hands of Experience®**

Dial (866) 766-2362 or (304) 526-1999  
Fax: (304) 399-7468
Valley Health, one of the region’s leaders in primary health for more than 35 years, is proud to announce the opening of Valley Health – East Huntington, our system’s largest health center and the new home for our administrative headquarters. From a humble beginning in 1976 with three health centers, to the 36 Tri-State health centers and public health programs we operate today, Valley Health is committed to help lead the nearly 70,000 patients we serve toward a bright and healthy future.

Dr. José I. Ricard, a native of Cuba and a 1960 graduate of the University of Havana Medical School, served as the Cuban Olympic Team Physician and the Cuban Sports Medicine Director before fleeing the communism of Cuba in 1963 to come to West Virginia. The Cuban native fought the war against Fidel Castro as a Lieutenant in the Medical Corps from 1950 - 1959.

Dr. Ricard is the only physician who is a member of the Marshall University Athletic Hall of Fame and is responsible for starting Marshall University’s Sports Medicine program. As Team Physician of the Thundering Herd since 1981, Dr. Ricard was a key component to the rise of Marshall athletics. As a Family Physician, Dr. Ricard provided care to thousands of patients through his private practice. He also served as a past President of the West Virginia Chapter of the American Academy of Family Physicians and was awarded the Academy’s highest honor, the prestigious “Family Doc” Award in 1994.

Dr. Ricard served as the Vice President of the Family Medicine Foundation of West Virginia for over 30 years and was instrumental in the success of the Foundation’s annual conference. To honor his tireless and dedicated efforts, the conference’s name was changed in 2008 to the Annual Jose I. Ricard, MD Family Medicine & Sports Medicine Conference.

Dr. Ricard’s achievements in the Tri-State area include helping to establish the Marshall University Medical Center and the Marshall University Sports Medicine Hall of Fame. He served as Co-Chairman of the Marshall University School of Medicine Family Practice Sports Medicine Department, where he was also an Associate Professor. Dr. Ricard also received a Lifetime Member Recognition Award by the Big Green Scholarship Foundation and was a major contributor to several of Marshall University’s booster programs.

His lifelong achievements go well beyond the Tri-State area, and his impact has been felt throughout the world. He was well-known for his accent and infectious smile, and he is remembered and missed by many in the Tri-State area. The Family Medicine Foundation of West Virginia is proud to honor his commitment to the Tri-State area, to Marshall University, and to the practice of Family Medicine.

CONFERENCE OBJECTIVES

To provide health care professionals with an update on the diagnosis and treatment of commonly encountered problems. As a result of attending this Conference, participants will review current clinical concepts in core areas of Family Medicine and Sports Medicine, acquire practical, clinical information helpful in the diagnosis and management of medical problems, and enhance and advance knowledge, skills, and professional performance, thereby furthering excellence in health care in West Virginia and the surrounding region.
This live activity, the 28th Annual José I. Ricard, MD Family Medicine & Sports Medicine Conference, with a beginning date of November 13, 2014, has been reviewed and is acceptable for up to 26.50 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit toward the AMA Physicians Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

Approved for 26.58 contact hours of continuing education (which includes 16.29 hours of pharmacology) by the American Association of Nurse Practitioners. Program ID 1401006. This program was planned in accordance with AANP CE Standards and Policies and AANP Commercial Support Standards.

Approved for 26.50 credits of AOA Category 2-A continuing education by the American Osteopathic Association.

Accepted for Physician Assistant CE credit by the West Virginia Board of Medicine.

Approved by the West Virginia Board of Examiners for Registered Professional Nurses. Provider Number: WVBRN No. WV1996-0101RN.

Sunday program is approved for 7.25 hours of continuing education by the West Virginia Board of Chiropractic.

Approved for 26.50 contact hours by the West Virginia Board of Physical Therapy. Approval # FMF-F14-01. Approval of this course does not necessarily imply that the WVBPT supports the views of the presenter or sponsor.

Approved for 26.5 Category-1 contact hours by the Kentucky Physical Therapy Association. Approval # 05-IPKPTA-14.

Approved for 26.5 hours by the Kentucky Board of Occupational Therapy. Approval # 2014-5.

Approved for 24.25 hours of continuing education by the Ohio Physical Therapy Association. Approval # 14S0161.

Approved for 24.5 contact hours by the Occupational Therapy Section (Approval # 150002) and the Athletic Trainers Section (Approval # 150001) of the Ohio Occupational Therapy, Physical Therapy, and Athletic Trainers Board.

Approved for up to 26.5 hours by the Board of Certification for Certified Athletic Trainers (the Sunday program is approved for 7.25 contact hours/CEUs). Approved Provider # P657.

Approved for 16.29 general hours (Approval # WV2013-12-03-CEG) by the West Virginia Board of Pharmacy.
The Family Medicine Foundation of West Virginia would like to thank the following volunteers, who have donated their valuable time to serve on the Planning Committee for the 28th Annual Jose I. Ricard, MD Family Medicine & Sports Medicine Conference:

**Program Co-Chairman, Robert B. Walker, MD, MS**  
Vice Chancellor for Health Sciences  
WV Higher Education Policy Commission

**Program Co-Chairman, Joe Leaman, MS, ATC**  
Director of Sports Medicine / Athletic Performance  
Mountain River Physical Therapy  
Parkersburg, WV

**PLANNING COMMITTEE MEMBERS**

**David Bailey, MBA, Assistant Dean, CME**  
Marshall University Joan C. Edwards School of Medicine

**Tom Belmaggio, MS, ATC, CSCS, Head Athletic Trainer**  
Marshall University Athletics Department

**Lisa Breeden, MSIR, Hospital Services Representative**  
St. Mary’s Medical Center – Huntington, WV

**William B. Ferrell, Jr., Volunteer, Secretary/Treasurer**  
Family Medicine Foundation of West Virginia

**Kendra Hanhanns, Vice President**  
Travel MD, Huntington, WV

**Linda Holmes, Director of Development & Alumni Affairs**  
Marshall University Joan C. Edwards School of Medicine

**Doug Korstanje, Director of Marketing**  
St. Mary’s Medical Center – Huntington, WV

**Doug Sheils, Director of Marketing**  
Cabell Huntington Hospital – Huntington, WV

**Anne Stevens, Family Medicine Foundation of West Virginia**

**Jeff Stevens, Family Medicine Foundation of West Virginia**

**Jack Taylor, Director of Business Development & Outreach**  
Cabell Huntington Hospital – Huntington, WV

**Molly Watson, Family Medicine Foundation of West Virginia**

**Stephen M. Petrany, MD, Chairman**  
Department of Family Medicine  
Marshall University Joan C. Edwards School of Medicine

**Matt Walker, Family Medicine Foundation of West Virginia**

**Judy Watters, Department of Family & Community Health**  
Marshall University Joan C. Edwards School of Medicine

**EXPRESSING OUR GRATITUDE**

The Family Medicine Foundation of West Virginia would like to thank those who have contributed so generously to make our 28th Annual Jose I. Ricard, MD Family Medicine & Sports Medicine Conference a success.

EDUCATIONAL CONTRIBUTORS

The Family Medicine Foundation of West Virginia would like to acknowledge the following companies for educational grants or speaker support. Without this support, it would be financially impossible to continue the high quality of CME/CE for which this conference has provided for the past 28 years: (in alphabetical order)

- Supported by an educational grant from Alcon
- Supported by an educational grant from Alkermes, Inc.
- Supported by an educational grant from Allergan
- This Activity is supported by an educational donation provided by Amgen
- Battling Ropes
- Supported by an educational grant from Bristol-Myers Squibb and Pfizer, Inc.
- Centers for Disease Control and Prevention
- Supported by an educational grant from Daiichi-Sankyo
- Supported by an educational grant from EMD Serono
- EMR Legal
- Supported by an educational grant from Forest Laboratories
- Generations Physical Therapy
- Highmark West Virginia
- Johns Hopkins Hospital
- University of Kentucky Medical Center
- The Kyle Group
- Marshall Health Departments of Pediatrics, Orthopaedics, and University Eye Surgeons
- Marshall University – Biological Sciences
- Marshall University Joan C. Edwards School of Medicine
- Mayo Clinic
- McKown Translational Genomic Research Institute
- Mercy Health Osteoporosis and Bone Health Services
- Mizes Psychological and Alternative Health Solutions
- Mountain River Physical Therapy
- Ohio University College of Osteopathic Medicine – ARHI Diabetes Center
- Supported by an educational grant from Purdue Pharma L.P.
- The Schneller Group / Auburn University
- Scott Orthopedic Center
- St. Mary’s Medical Center
- St. Mary’s Women and Family Care
- Supported by an educational grant from Teva Pharmaceuticals
- Travel MD
- Supported by an educational grant from Zogenix, Inc.
- West Virginia Department of Health and Human Resources
- West Virginia Family Health
- West Virginia University Departments of Family Medicine and Neurology
- West Virginia University School of Medicine
- Wirt County Health Services
- WVU Healthcare

AMGEN®
Paul W. Ambrose, MD, a dedicated family doctor, died tragically at the age of 32 as a passenger on American Airlines Flight 77, which crashed into the Pentagon on September 11, 2001. Paul grew up in Huntington, West Virginia and attended Marshall University, as well as the Marshall University School of Medicine. He completed his residency at Dartmouth University and received a master’s degree in public health from Harvard University. Paul was a Senior Clinical Adviser in the Office of the Surgeon General and a Fellow at the U.S. Department of Health and Human Services. After his passing, Paul received the U.S. Surgeon General’s Medallion, the federal department’s highest honor.

Paul was an avid outdoorsman and was keenly interested in sports medicine, obesity, and overall physical health. At the time of his death, Paul was flying to Los Angeles, CA for an adolescent obesity conference, a program that was fittingly dedicated to Paul, posthumously. The Family Medicine Foundation of West Virginia is privileged to honor the memory of Paul W. Ambrose, MD.

FACULTY DISCLOSURES
(in alphabetical order)

The following speakers have disclosed that they have no financial interest, arrangement, or affiliation with any commercial organization, and will not be discussing any products which they had a role in developing. These speakers have also disclosed that they will not discuss any off-label use or unapproved or investigational use of any product:

Esam N. Baryun, MD
Heather Bowles, PTA, SDPT
John F. Brick, MD
John Brookfield
Pier Paolo Claudio, MD, PhD
Russell L. Fry, II, MD
Paul E.A. Glaser, MD, PhD
Mary Goessler, MD, MPM
Tracy Hendershot, MD
Gregory S. Hendricks, MD
Justin Kiger, PT, DPT
Amber Kuhl, MD
Jim Kyle, MD, FACSM
Joyce Landers
Joe Leaman, MS, ATC
J. Scott Mizes, PhD, ABPP, FAED
Vivek Neginhal, MD, MB, MS
Cindy Pinson, MD
Shiv Saidha, MBBCh, MD, MRCPI
Guillermo Sanchez, MSHS, MPH, PA-C
Stewart Schneller, PhD
Frank L. Schwartz, MD, FACP, FACG
Meagan Watts Shepherd, MD
Travis Tarr, PT, MS, DPT
Carrie A. Thomas, PhD
Jonathan P. Tomes, JD
Jagan Valluri, PhD
Nelson B. Watts, MD, FACP, MACE, CCD

**Dr. Frank Schwartz** disclosed an affiliation with Medtronic Minimed Corporation, who sponsors some of his clinical research studies, as well as a consulting relationship with sanofi-aventis U.S. He disclosed that he may discuss products in which he had a role in developing.

**Dr. Nelson Watts** disclosed a relationship with OsteoDynamics as co-founder, stockholder, and director, as well as speaking and research relationships with Amgen, Merck, AbbVie, Amarin, Bristol-Myers Squibb, Corcept, Endo, Imagepace, Janssen, Lilly, Novartis, Noven, Pfizer/Wyeth, Radius, NPS, and sanofi-aventis U.S.
John Brookfield is the founder, creator, and developer of the Battling Ropes System, as well as multiple world record holder and author. John has been a leader in the strength and fitness world for many years, and is known around the globe for his amazing feats of strength and endurance. He has trained hundreds of professional athletes on developing physical capacity. He has been on television with shows like *Regis and Kathie Lee*, *The Today Show*, and *Good Morning America*, just to name a few. John has been featured in the *Ripley's Believe It Or Not* and the *Guinness Book of World Records*, as well as several publications including MMA Sports, Fighters Only, and *The Washington Post*. John has authored four books, including *Mastery of Hand Strength*. Although John is 52 years old, he feels that he has not yet reached his potential when it comes to his fitness level. By finding and developing the Battling Ropes system, John has found a new motivation to climb higher due to results that the system produces.

Several notable feats:

- John recently pulled a truck weighing 24,000 pounds a distance of one full mile in one hour and 23 minutes. The mile pull was done without the use of any pulling ropes.

- John rolled up one-quarter mile of steel nonstop in 59 minutes. The world record was done by using 62 20-foot steel bars. Each bar was laying on the ground and had to be rolled up so tight that they fit into a small suitcase.

- John and Jon Bruney pulled a semi-truck weighing slightly over 32,000 pounds a distance of one full mile in one hour and 36 minutes. Much of the route had an upgrade.

- John tore 100 decks of plastic-coated poker cards in half in two minutes and 15 seconds. John tore 60 decks of plastic-coated poker cards in half in one minute exactly.

- John performed 1,200 kettlebell snatches in one hour exactly using a 53-pound kettlebell.

- John performed 302 kettlebell snatches in ten minutes using a 53-pound kettlebell.

- John bent 520 nails into a U-shape in one hour and 42 minutes. The nails were 60-penny nails.
EXHIBITORS
(in alphabetical order)

The Family Medicine Foundation of West Virginia would like to thank our exhibitors for their continued support. Lecture and event times have been scheduled to allow our registrants to spend more time visiting the exhibits and speaking with exhibitors.

AbbVie Inc.  Booth 24
Stephanie Neil, Rob Jarrell

AbbVie is a global, research-based biopharmaceutical company which combines the focus of a leading-edge biotech with the expertise and structure of a long-established pharmaceutical leader. AbbVie is committed to using unique approaches to innovation to develop and market advanced therapies that address some of the world's most complex and serious diseases.

Alcon Laboratories Inc.  Booth 22

We are the faculty practice plan for the Joan C. Edwards School of Medicine and as such are committed to excellence-excellence in medical education and excellence in patient care. Marshall Health cares for patients at more than a dozen locations in the region. Offering the latest in high-quality, multi-disciplinary health care, we serve patients from nearly 29 counties in three states. We are…Marshall Health!

**MD Labs**
Colin Myers

MD Labs was founded in 2011 with the goal to specialize in prescription monitoring toxicology and serve physicians across the US. Our founders, Matthew Rutledge and Denis Grizelj started the company with the goal of creating a more provider-friendly testing service that prides itself on delivering prompt, accurate, reliable and easy to understand results. Employing state of the art technology and testing for a wide array of analytes, our team of PhDs and clinical technologists is able to keep ahead of the needs of our community. Constantly adding services based on client requests and pharmacotherapeutic trends allows us to provide quick, accurate, and cost-effective drug testing while enhancing patients’ prescription adherence and overall patient care. In 2014, MD Labs began offering pharmacogenetic (PGX) testing as a way for providers to better understand individual patients responses to prescription medications and reduce adverse drug reactions.
MedExpress Urgent Care  
Jan Bailey, Dr. Chris Howard

At MedExpress Urgent Care, we believe a more satisfied physician can deliver better quality care and higher patient satisfaction. We practice the science of medicine and the art of patient care in more than 125 welcoming, state-of-the-art facilities in multiple states. Come help us lead our revolution in patient care.

Medical Practice Management Solutions  
Pat Burrows, Emily Cornwell, Ian Wiley, Justin Williams

HD flat-screen television – donated by the FMFWV

Saturday, November 15, 2014 – 3:50 pm

Exhibit must be on display at time of drawing.
ESP SCHOLARSHIP FUND

The Family Medicine Foundation of West Virginia ESP Fund is a medical student scholarship program designed to help and encourage family physicians to practice in West Virginia. The fund originated in 1978-1980 when the nearly 15,000 members of the West Virginia Federation of Women’s Clubs (dba GFWC West Virginia) raised over $60,000 for ESP (Educational Seed for Physicians). On May 1, 1991, the ESP Fund was transferred to the Family Medicine Foundation of West Virginia.

ESP is now governed by the Family Medicine Foundation of West Virginia Board with a selection committee composed of representatives from the Foundation Board, GFWC West Virginia, and the medical profession. In April of each year, the Selection Committee selects recipients from among 2nd, 3rd, or 4th year medical student applicants. Scholarships to individual recipients are $5,000 per year for a possible $20,000 for four recipients to be awarded on the basis of need and interest in Family Medicine.

A student receiving an ESP Scholarship promises to specialize in the field of Family Medicine, and upon completion of his or her intern or residency training, he or she promises to practice in the state of West Virginia for two years. If the ESP Scholarship is granted to a 4th year student, the recipient would only be required to practice in the state for one year.
The Dr. C. Carl & Margaret Tully Medical Student Fund was created from a Charitable Remainder Unitrust established by the Tullys. It is governed by the Family Medicine Foundation of West Virginia Board with a Tully Fund Selection Committee composed of representatives from the Foundation Board, GFWC West Virginia, medical schools, and the medical profession.

In April of each year, the Selection Committee selects recipients from among the qualified applicants. Scholarships to individual 3rd and 4th year medical students in the amount of $5,000 per year, or a total of $10,000 for 3rd year medical students, are awarded on the basis of need and interest in Family Medicine.

A student receiving a Tully Scholarship promises to specialize in the field of Family Medicine in the state of West Virginia for one year upon completion of his or her intern or residency training. After one year of practice is completed, the Family Medicine Foundation of West Virginia Tully Fund agrees to waive repayment.
